

## Elective catalogue for International Legal Studies (as of 05 October 2022)

The courses to choose from for the successful completion of the programme “International Legal Studies” can generally be divided into three groups: (1) general courses, (2) additional courses and (3) courses requiring recognition. This document compiles all courses from groups (1) and (2) currently being offered. Students can freely choose from these courses. For the crediting of any other module not yet listed here, kindly contact the Chair of African Legal Studies.

This catalogue cannot guarantee that courses will not overlap with other courses of the program. Furthermore, the appearance of courses that are limited in the number of participants does not indicate a right for participation. In this case, please consult the respective lecturer. The certificate of participation is issued according to the procedure specified for the respective subject. It is the student's responsibility to be aware of the examination modalities in good time. For specific information on events in the current semester, please refer to the [Website of International Legal Studies](#) or to [CM-Life](#).

\*Additional courses are highlighted: Since we offer some of the listed courses for the first time, you might face some difficulties with the registration via CM-Life. If there are any problems, please contact the relevant chair for the registration of their course or register for the desired course with your main course of study.

### Module Area A: Language (in total 4 ECTS)

Module	LV-Nr.	ECTS	Responsible Chair	Semester	Additional Information
English for Lawyers 3	SE201	2	Sprachenzentrum	WiSe/SoSe	Prior knowledge from English for Lawyers I and II
